

WE'RE MOVING!

As an overall part of our continuing growth strategy, ASI will be relocating our existing 17-year-old Sterling, VA headquarters to our newly expanded facility in Reston, VA!

ASI's **updated HQ and mailing address** for all correspondence is:

Aeronautical Systems Incorporated
12040 South Lakes Dr
Ste 203
Reston, VA 20191

Effective immediately, any **shipments of products** to ASI Sterling, VA offices arriving after 10/22/2021 should be rerouted to our Texas facility located at:

Aeronautical Systems Incorporated
5541 Bear Lane
Ste 200
Corpus Christi TX 78405

Since our inception in 1988, ASI has remained a customer-focused, innovative, and capable provider of quality aftermarket spares and repair services to the military operating community. This move is designed to provide increased business scalability to handle our rapidly expanding customer base while improving and streamlining the overall customer experience.

2021 has been an exciting time for ASI. In addition to our scheduled HQ move to Reston, VA, ASI is also simultaneously breaking ground on our new, purpose-built manufacturing and repair facility in New Bern, NC! We look forward to sharing updated news of this expansion with you in the coming months. We would like to take this time to thank you, our customers, for continuing to put your trust in ASI. Collectively we look forward to providing you with additional services and products as we maintain your ability to "Operate with Confidence™"

If you have any questions please reach out to facilities@aeronautical.com. This letter and all news will be posted to ASI's website www.aeronautical.com
